

# Solidarity – International - Anarchist - SUDAN

Sudan is in the throes of chaos, delivered to the war for power between two generals. During this time that the military are reigning terror, the Revolutionary Neighborhood Committees, resulting from the Revolution against the military coup of 2021 (1) are trying to organize relief for the populations as best they can. Volunteers organize themselves to help civilians in distress, provide them with medicine or milk for babies, and offer refuge to foreign nationals.

The anarchist companions of Sudan, who participate in the Revolutionary Committees and with whom we have been in contact since the Revolution, have launched a distress call for financial solidarity.

If you wish to contribute, you can send your solidarity by check (in Euros only) made out to CNT-AIT (mention solidarity Sudan on the back) to CNT-AIT 7 rue St Rémésy 31000 TOULOUSE or through the electronic platform: <https://www.paypal.me/cntait1> (please validate "Sending money to a relative" to pay less bank charges)
